

Debugging events organization plan

Event Date: 11 Nov 2024

Event Time: 1:30 PM to 1:50 PM

Instruction:

All participants are required to arrive promptly at the scheduled time or before starting of competition (**1:30 PM to 1:50 PM**), in classrooms **201** located in the **CSE Department**.

Rules for the Debugging Competition:

Total Questions: The competition consists of 30 questions, focusing on debugging various coding issues.

Duration: Participants have 20 minutes to complete all questions.

Scoring:

- The marks for each question are indicated on the right side of the question.
- There will be no partial marking. Each question is worth full points only if completely correct.
- The total score will be the sum of points from correctly answered questions.
- There is no negative marking.

Types of Errors:

- Questions include identifying syntax errors, logical errors, runtime errors, and fixing code to produce the desired output.
- Each question specifies the type of error to help guide participants in their debugging approach.

Submission:

- Participants are required to submit their answers at the end of the time limit.
- Late submissions will not be accepted.

Disqualification:

- Cheating or collaboration with other participants is strictly prohibited and will result in disqualification.

- Any use of electronic devices other than the allowed computer systems is not permitted.

Announcements:

- All participants must follow any announcements made during the competition.
- If there is any technical issue, participants are required to report it immediately.

Grading and Results:

- Results will be announced after grading is complete.
- Certificates will be provided to the top performers, and all participants will receive participation certificates.
